AUTOMATIC FOLDING MACHINE

The automatic folding machine **STP1000\*** folds ready-made clothes quickly, quietly and precisely. It requires just one operator and it is designed to ideally fold t-shirts. It can be easily adjusted in order to fold various types and sizes of clothes in different ways.

The automatic folding machine **STP1000** has a folding capacity of 5500 clothes per eight hours (the measurement was carried out at our site) and folding is achieved via 5 basic programs.

The machine's output capacity depends largely on the operator's swiftness, the machine's program selection and the type of cloth.
