

thermotron PV38

AUTOMATIC BAGGING MACHINE

H **PV38*** is an automatic bagging machine for clothes. The output capacity of **PV38** depends on the output speed of **STP1000** or on how fast the operator places the clothes in the machine when the machine functions independently.

Polyethylene (**PE**) bags in the form of an envelope are placed in the machine, which receive one by one the folded clothes that come from the automatic folding machine **STP1000**.

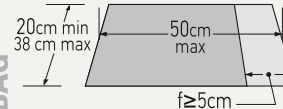

If more than one cloth needs to be placed in a bag, **PV38** must be used independently (not in combination with **STP1000**) and the operator must place the cloth in the machine manually.

DIMENSIONS L-W-H: **86x64x132cm**
 NET WEIGHT: **110kg**
 POWER SUPPLY: **400V 50-60Hz**

POWER CAPACITY: **0.10Kw**
 AIR PRESSURE: **6bar**
 AVG. AIR CONSUMPTION: **60L/min**

PLASTIC BAG

MAX. CLOTH THICKNESS: **5cm**
 BAG CAPACITY: **80-100pcs**
 OPERATOR: **1 person**

* **PV38** is combined with **STP1000** and **KL55**
